Light-Weight, Clean-Turning Hillside Plows

Make your work on hill-
side fields easier by using
one of our Syracuse wood-
beam plows of the swivel type.

These plows are light-
weight, clean-turning and
easily guided, lessening the la-
bor of hillside plowing to an ex-
tent that you will appreciate.

They are widely used,
also, for level land plowing.

Equipped with the fa-
mous Syracuse bottoms,
they work well and make thor-

ough seed beds. These bottoms
are especially well adapted for
good service in this section.
You can get them with all
chilled parts or with cast or
steel moldboard and chilled or
cast steel share.

Come in and tell us the
condition of your soil. Then
we will show you bottoms that
have proved their special value
under similar conditions.

We want you to inves-
tigate these plows fully and
see why they are particularly
adapted to meet your needs.

Our Syracuse extra parts always
fit perfectly.

MRS. R. G. APPLE.

H. L. McDearman has re-
turned from Chestnut Mound,
where he attended the burial
of his sister, Mrs. R. G. Apple,
who died Wednesday, following
a stroke of paralysis.

Mrs. Apple was 65 years old,
and had been a member of the
Methodist Church for fifty years.
Besides her husband and six
children, two brothers, H. L. Mc-
Dearman of Gainesboro, J. C.
McDearman of Cookeville, and
one sister, Mrs. Della Trousdale
of Smith county, survive her.

The editor has been out of the
office this week nursing four
cases of flu. What errors occur
in the paper will have to be ex-
cused.

Foreign Letters.

Detroit, Mich.
March 9, 1920

Editor:

Allow me space, and I will
write a short letter. I have just
finished reading letters from my
friends at Coalinga, and was
glad to hear from them.

I have been in Detroit four
years, April 6th. Haven't been
home but one time, and that was
2 years ago. I haven't had but
one job since I have been here.
I work for the W. S. Rubber
Co., (Morgan & Wright). There
is lots of so called flu here, I
had a 2 weeks case myself. My
family have been sick ever since
Christmas, from one to as many
as seven in bed at a time. The
Drs. called my house a Southern
Hospital. The children all had
measels and pneumonia. Some
of them were very low, but at
present are some better.

Lawrence Birdwell is talking
of selling his Rooming House,
and sending his family home for
the summer.

John Wilmoth is singing the
good old Louthern hymn (Good
by John).

Martha Belle and Lillie Mai
Wilmoth spent Sunday with the
writer and family.

Geo. Allen's little girl, Cora
Belle, is suffering with pneumo-
nia. The doctor has just called.
She is no better.

Howard Jones has left for
Davidson county to make a crop
this year.

When the door bell rings I
know it is the doctor, or the rent
man one. They are regular vis-
itors.

Leonard Birdwell is looking
for a job on the farm somewhere
this year. He got canned where
he was working, for knocking a
wop in the head.

Anyone wishing to make De-
troit their home, must buy a
house and then send for the
wife and kiddies.

Best wishes to all.

Dear Sentinel:

I am liking the West,
fine, and having the time of my
life. I'm liking school fine.
I go to High School. We have
a very large school; there are
two other schools in town: East
and West Ward. I am in the
9th grade. We have the best
basket ball team in southwest
Okla., team lost only two games
this season.

There are lots of girls and
boys here. I go to the Method-
ist Sunday School. I'm in a class
of 27 girls, and Secretary and
Treasurer of my class.

It is very dry now, people are
still picking cotton and thresh-
ing wheat.

We have had an Aeroplane
with us for a few days, and
many of our citizens, who are
anxious to get higher up, are ta-
king joy rides, think Dr. Hix
and I will go up tomorrow. Aer-
planes pass out this city quite
often, making trips from Lanton
Oklahoma, to Texas.

There is lots of building now,
a fifty thousand dollar Methodist
Church; an eighty thousand dol-
lar Baptist church; a fifty thous-
and dollar hospital, Community
hall and Library, besides many
new residences.

There are two theatres in
town, "The Birth of a Nation"
will be shown Friday night at
the Empire.

Love to all, especially the in-
habitants of Yuby Dam.

Mary Tom Johnson.

Settle, Ky.

Dear Editor:

Thought I write to the
paper, as I am always glad to
read the news from other cor-
respondents over the county.

Work is good in the oilfields.

LOCALS

he and his brother, Lige, were
going home, if they knew they
could walk the distance. Won-
der if Lassie Trisdale is will re-
turn to Settle. Louis Godsey
visited R. L. Denson, Monday
night. Jim Ed Trisdale is at
member of the Church now.
Wonder if Benton Walker in-
tends to return to this place,
for prices are much better than
they were. What has become
of the big Noah Chaffin. I can-
hear from him.

The editor hopes to escape the
"flu," but if you do not receive
your paper next week, you'll
know he has got it.

Just Received a Car Load of New Stoughton Wagons.

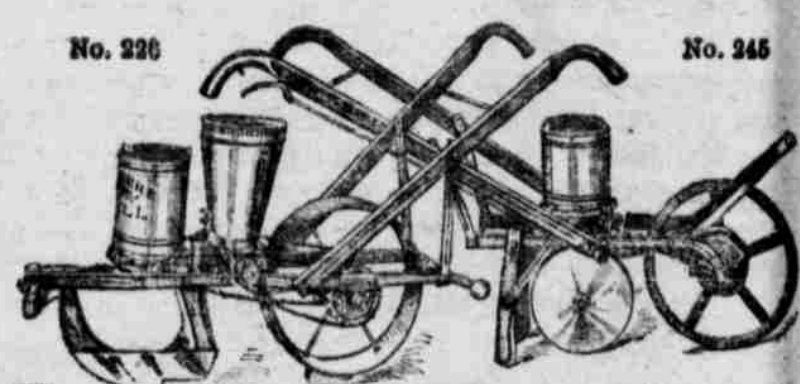

SPECIAL FEATURES OF STOUGHTON IN A NUT SHELL.

The strongest wheels,
The strongest axle,
Lighter draft than any other wagon,
Skins which retain grease longer than
any other wagon,
Gears which retain their set and gather in-
definitely.

It is to your interest to see these features of the
New Stoughton; which make it one of the best wagons
on the market. All Stoughton wagons come in the
wide track.

One-Row Planters for Corn, Peas, Beans and Other Seeds

By using one of the one-
row planters we have in
stock, this great variety of seeds
can be planted exactly right to
get the biggest crop. Seed plates
can be furnished for planting
different seeds practically any
desired distances apart in the
row; also attachments for dis-
tributing fertilizer and planting
peas.

The fertilizer can be dis-
tributed in the row at the
same time corn is planted, and
the distributing mechanism can
be thrown in and out of gear

independent of the corn-plant-
ing mechanism.

The John Deere No. 226
Drill has runner opener,
wheel coverer and chain drive;
the No. 245 double-disc opener,
polished steel coulter coverers
and gear drive that gives three
drilling distances for every seed
plate. Tip-over hopper on both
styles—easy to clean out hop-
per without removing seed plate.

We know we can please
you by furnishing the style
of planter that will give you
best results. Just try us.

Come in and inspect these planters, and remember,
—they are accurate drop planters, so well built
that they give satisfactory service year after year.
